

The *On Track* Survey 2007

**LLEN Report
South West**

**Office for Policy, Planning and
Evaluation Department of Education**

Knowledge&Skills
Building a Future

Prepared for
the Office for Policy, Planning and Evaluation
Department of Education *by* the Centre for Post-
compulsory Education and Lifelong Learning,
University of Melbourne.

© State of Victoria, 2007

This report provides information about the destinations of 2006 school exit students contacted for the *On Track* survey across all LLENs.

The *On Track* initiative aims to support the successful transition of young people from school to further education, training and employment.

On Track follows up students in the six months after they leave school to find out about their post Year 12 education, training and employment destinations.

Data obtained through *On Track* is used to publish post Year 12 education, training and employment destinations celebrating the broad range of outcomes schools create for students – not just university but studying at TAFE, undertaking apprenticeships and other forms of training or employment. Those not studying or employed who request additional pathway advice and support are referred to the Local Learning and Employment Networks (LLENs). The LLENs contact these young people and assist them to contact local service providers to help them get their career plans back on track.

Since 2003, more than 190,000 year 10, 11 and 12 school-leavers have participated in *On Track* Surveys. The *On Track* Longitudinal Survey follows groups of the 2003 and 2004 Year 12 completers and early leavers to develop a more detailed picture of their transitions over the four years after they leave school.

State wide, annual *On Track* reports and the *On Track* Longitudinal Reports are available on the *On Track* website

<http://www.sofweb.vic.edu.au/voced/ontrack/data.htm>

This data is part of the *On Track* information which is provided for your LLEN. Other data provided includes:

- time series data (2003-2007) for year 12 completers by LLEN area (with deferrals separate)
- bench marks data against all LLENs and state-wide (government and non government schools separately, deferrals separate)

This data is a valuable planning tool which complements the other information gathered by the LLEN as part of its environmental scanning and strategic planning processes.
