Prepared for the Office for Planning, Strategy and Coordination  
Department of Education and Early Childhood Development by the  
Australian Council *for* Educational Research (ACER)

© State of Victoria, 2008

This report provides information about the destinations of 2007 exiting students contacted for the *On Track* survey across all LLENs.

*On Track* follows up students in the six months after they leave school to find out about their post Year 12 education, training and employment destinations.

Data obtained through *On Track* is used to publish post Year 12 education, training and employment destinations celebrating the broad range of outcomes schools create for students – not only university but studying at TAFE, undertaking apprenticeships and other forms of training or employment. Those not studying or employed who request additional pathway advice and support are referred to the Local Learning and Employment Networks (LLENs). The LLENs contact these young people and assist them to contact local service providers to help them get their career plans back on track.

Since 2003, more than 190,000 Years 10, 11 and 12 school leavers have participated in *On Track* Surveys. The first *On Track* Longitudinal Surveys followed groups of 2003 and 2004 school leavers to gain a more detailed picture of their transitions over the four years after they leave school. The second longitudinal study began this year and will follow a cohort of 2007 school leavers for the next three years.

State wide, annual *On Track* reports and the *On Track* Longitudinal Reports are available on the *On Track* website:

<http://www.education.vic.gov.au/sensecyouth/ontrack/default.htm>

This data is part of the *On Track* information which is provided for your LLEN. Other data provided includes:

- time series data (2003-2008) for Year 12 completers by LLEN area (with deferrals separately)
- bench marks data against all LLENs and state-wide (government and non government schools separately, deferrals separately)

This data is a valuable planning tool which complements the other information gathered by the LLEN as part of its environmental scanning and strategic planning processes.

Notes: 1. The data in this table are for all school leavers who are not in education or training, including those who deferred university or TAFE/VET study as well as those who did not apply for study.  
2. Respondents may have selected more than one reason.  
3. Respondents were not required to answer all questions about reasons for not studying, because they had given their reason for not studying earlier in their interview.
